## **SECTION I:**

### **Introduction to Law Domain**

## **1. Introduction:**

Law Domain is an extremely challenging area. The formal degree-based courses are the bastion of aspiring lawyers, judges and law professionals in every sphere of society. Excellence in law is extremely important, because it shapes the quality of the rule of law in a given society. The invaluable experiences that law domain offers include a wide range of legal subjects in theory and practice – constitutional law, contracts, torts, criminal law, corporate law, property law, administrative law, jurisprudence, procedure, evidence, labor law, and commercial law and so on.

It also offers law students a supervised, rigorous and disciplined opportunity to learn practical legal skills through clinics, internships, moot courts and trial practice, research and negotiation courses thus makes a student to be proficient in the nitty-gritty of the legal system.. The Domain represents a superior way that offers beyond techniques, skills and competences, the basic philosophies, ideologies, and instrumentalities all addressed to the creation and maintenance of a law-abiding and just society.

An education under this domain teaches potential lawyers the nuances of law and equips them with a strong foundation on the subject. It ensures that the legal system of the country is supplied with well-trained individuals, who can uphold the values of justice, equity and equality for nationhood and global peace and security.

Manifestation of legal dynamism depends on social, political and economic changes, having an impact on the society as a whole. This has led to an immense need for the advancement of law education with a holistic approach, where the law students would be imbibing both traditional and advanced knowledge coupled with the necessary professional and interpersonal skills.

The integrated Law degree (approved by the Bar Council of India) must ensure to acquaint the future lawyers with the following skills

**Legal Know-how:** Gaining in-depth knowledge of Legal concepts and understanding of legal principles.

**Collaboration skills:** Ability to function in a multi-disciplinary work environment to achieve challenging professional goals.

**Effective Client Counselling :** Procuring a vital skill for. assisting clients in making choice from available options

**Team effort learning:** Acquiring new techniques to build a strong and successful team that works together towards achieving challenging goals.

**Problem Solving :** Developing skills to bridge the gap between academic study and lawyering..

**Advocacy skills/capabilities:** Being aware of the concept of client-centric legal services.

The industry /profession needs are continuously changing while the global environment of education around the world is witnessing huge changes.

## **SECTION II:**

### **Introduction of Outcome Assessment Plan**

## Outcomes Assessment

Outcomes assessment is a systematic, evaluative process that is implemented to secure learning experiences that are congruent with original goals and objectives; thereby providing a basis for the effectiveness and continuous quality improvement of the academic unit.

- 1) The annual **outcome assessment** process is more **qualitative** and focuses on improving teaching by **analyzing student learning outcomes**.
- 2) The programme **review process** is more **quantitative** and focuses on the programme/discipline as a whole, how effective it is, and that our students are learning.
- 3) To achieve the above, some aspect of each programmes goals and objectives needs to be assessed on an annual basis.
- 4) All programme and general education goals shall be evaluated annually

The outcome assessment plan includes:

1. **Mission** - The Mission is defined for the domain which flows down to the Institution level and finally to the programme level. The mission at the institution and programme level is aligned with the domain mission
2. **Broad Based Goals:** - The broad based are defined under the following categories:
  - 2.1 **Educational Goals:** The Educational Goals are defined at Domain, Institution and Programme level. The Educational Goals at the institution and programme level are aligned with the domain mission.
